## Summary

- 8 years of experience in iOS development with a strong command of engineering fundamentals.
- Successful track record leading and delivering complex iOS projects with a wide impact.
- Adept at providing architectural guidance, building frameworks, and enabling rapid development of new iOS features.
- Strong mentorship skills, fostering team growth and contributing to a positive team culture.
- Experience working across cultures and timezones; having worked for or very closely with teams based in New York, London & California.

## Experience

### Senior iOS Developer

Marshall Group  
Apr 2023 - Present

- Engineered a ground-up architectural redesign and rebuild of the flagship Marshall app, significantly reducing development timelines.
- Led the transition from external contractors to an internal development team, highlighting the value to management of building and managing in-house expertise.
- Mentored junior developers, fostering a collaborative and growth-oriented team environment.

### Lead Mobile Developer

Firstborn  
Jul 2020 - Aug 2022 (1 year 9 months)

- Spearheaded the end-to-end development and successful on-time delivery of 3 high-profile mobile applications for Beats by Dre.
- Effectively managed a small team of developers, fostering collaboration with internal teams (UX, QA & Design) and external stakeholders (clients & vendors).

### Senior iOS Developer

Begin  
Mar 2017 - Aug 2019 (2 years 6 months)

- Managed deployment and coordinated testing with QA.
- Worked very closely with Product & UX on implementing new features and iterating older ones.
- Updated significant portions of the codebase to Swift from Objective-C
- Designed the architecture and developed HOMER Stories: Kids Library v1 from conception to launch.

## Education

### Lund University School of Economics and Management

Master of Science - MSc, International Economics | 2013 - 2015

### Queen Mary, University of London

Bachelors of Science - BSc, Economics | 2006 - 2009

## **Skills**

SwiftUI | Python | macOS | AI / LLM Integration | Continuous Integration | Continuous Delivery | Objective-C | Swift | Combine | Javascript | Node.js | REST APIs | CoreBluetooth | IoT | watchOS | Async/Await | Team Management | Software Architecture

## **Personal Projects**

**StudyBreak** Student focused time management app with 200k+ downloads.

**Fitness Pro** Fitness tracking app.

**Panda** AI prompt database & community.
